Warranty: American Air Components (AAC) certifies and warrants that all refrigerant sold by AAC are tested to AHRI-700. All other products sold by AAC are warranted to be free of defect. If you receive a product you believe to be defective in cylinder workmanship, please notify our office and a return authorization will be issued. Upon inspection, if the product is found to be defective, an account credit will be issued. This warranty will be in effect for one year from original date of purchase. The product must be free of damage due to licensed user/owner/operator misuse, damage or negligence.
